RETURNS ARE EASY! Just Follow These Steps

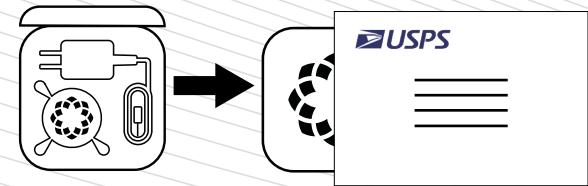

STEP 1

Once your study is complete, connect Biocore to the charger and charge until you are ready to send back the device.

STEP 2

Place the Biocore and the Biocore charger into the Biocore case, then place the Biocore case into the USPS pre-addressed and pre-paid envelope.

STEP 3

Seal the envelope well and place it in your mailbox for pick-up by USPS.

Your Reference / Study Code is:

GET STARTED with biodirect

PRE-STUDY CHECKLIST

- ✓ Confirm Biocore case contents:
Biocore device, electrodes, Biocore charging cable, Patient Supplement User Manual, Quick Guide
- ✓ Download the Biocare Health App
- ✓ Create your Biocare Health account and login
- ✓ Power **ON** the Biocore (press and hold the power button for 3 sec.)

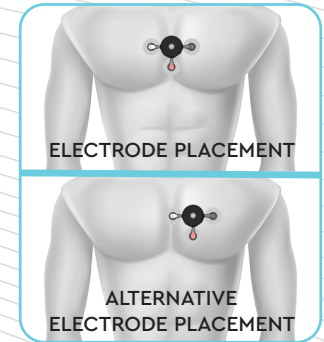

STEP 1

Prepare for electrode placement. Place per the instructions included in the Patient Supplement User Manual and Quick Guide.

IMPORTANT:

Biocore will be sent to you fully charged. For best results, we recommend that you **re-charge the Biocore every 24 hours.**

Take this opportunity to replace your electrodes with new ones. Once charged reattach the device to resume study.

STEP 2

Open the app. You should be prompted to connect the Biocore. If you don't receive a prompt, tap **DEVICES ► CONNECT DEVICE.**

STEP 3

Press and hold the Marking Button for a slow count of 5 sec. to start the study. The device status light will slowly blink white. In 3 to 5 minutes, the status light will slowly blink green to indicate the study has started.

Confirm the study has started in the app.
